

2019 Africa Tech Venture Capital Report

by

Partech Africa Team

African tech start-ups reach a new symbolic milestone with US\$ 2.02 Billion raised in equity funding, a 74% YoY growth.

2019 was another year of breaking records and achieving new milestones for the dynamic and fast-growing tech investment ecosystem in Africa. As we compile this report every year, we cannot help but marvel at the enormous and rapid growth in equity investment that has emerged in this ecosystem over such a short period. However, as we reflect on this, we find more exciting insights lying beyond these raw numbers, impressive as they are. Firstly, it's clear now that African tech growth is neither a minor nor a temporary phenomenon. There are certain to be ups and downs in the future, but this is the new reality that significantly redefines the scope of Private Equity in Africa and, further, the economies of the continent. Secondly, as this level of funding becomes the new normal, the conversation will now have to focus beyond how the African ecosystem can attract funding, and towards an analysis of value creation and outcomes for investors. If the previous five years are any indication, these aspects will also evolve faster than expected. And that's an exciting prospect for us all.

Methodology

01

Our methodology has remained unchanged since our first report. Below is a recap of the fundamentals:

1. We focus solely on VC deals that are in the **tech & digital** spaces. Nothing else!
2. Our numbers are for **equity deals only**. We are excluding any grants, awards, prizes, debt, loans, Initial Coin Offering (ICO), non-equity assistance and M&A deals.
3. Our numbers only include **funding rounds higher than US\$ 200K**, i.e. what we categorize as Late Seed to Growth stage Equity rounds. Angel deals and smaller Seed deals below 200K\$ (numerous on the continent) are omitted voluntarily.
4. We include **disclosed deals**, but we also collect and analyze **undisclosed deals**, accessing more detailed information thanks to our relationships within the ecosystem. What we categorize as undisclosed deals are either public deals but with undisclosed amounts or non-public deals. Confidentiality being key, we can only share aggregate numbers. Undisclosed deals that we have information on represent **30% of the deals (75 deals) but amount to a mere 11% of the total funding (US\$ 213 Million)**.
5. The numbers cover **African start-ups that we define as companies with their primary market being in Africa itself** (i.e. in terms of operations & revenues). In other words, what we call an African start-up is not based on the HQ's location or the country of incorporation.
6. For start-ups with a local presence in more than one African country, **only one primary country of operations has been identified and selected (at the time of entering our database)**. This is where the investment is accounted for and will be accounted for in any future follow-on rounds. This means that the country by country analysis reflects where the companies were founded and **is not** a precise evaluation of where the capital has been invested.

Partech Analysis 2020

Average round size per stage - 2015 to 2019 (in USS M)

Partech Analysis 2020

1. Early stage investments led by Seed & Series A are growing strongly while Growth equity players confirm their strong appetite for African tech start-ups:
 - The number of **Seed** start-ups attracting funding is strongly accelerating with **127 rounds (+59% YoY)** this year, representing **US\$ 151 Million (+91% YoY)** in aggregate deal value.
 - The exact same trend is happening at **Series A level** with **79 rounds (+55% YoY)** and aggregate deal value of **US\$ 469 Million (+125% YoY)**.
 - Series B and Growth stages have been growing steadily at a consistent rate for the last 3 years.
 - **Series B** stage represents **25 rounds (+32% YoY)** with total funding of **US\$ 488 Million (+78% YoY)**.
 - **19 rounds (+36% YoY)** in **Growth stage**, totaling **US\$ 912 Million (+51% YoY)**, confirm the attractiveness of tech African start-ups to growth capital investors. Notably there were 10 rounds above US\$ 50 Million in 2019, confirming investors' confidence in the tech sector.
2. This has led to the following average round size by stage:
 - For **Seed+**, an average round size of **US\$ 1.2 Million (+20% YoY)**
 - For **Series A**, an average round size of **US\$ 5.9 Million (+46% YoY)**
 - For **Series B**, an average round size of **US\$ 19.5 Million (+35% YoY)**
 - For **Growth stage**, an average round size of **US\$ 48 Million (+12% YoY)**

COUNTRY BREAKDOWN

37% *of total funding went to Nigeria*

26% *of deals counted went to South Africa*

EGYPT #3 *Egypt on the podium (in deals & total funding)*

85% *of total funding going now to a quartet vs. the usual trio*

18 *African countries attracted VC Tech Funding*

Nigeria attracted a record high of US\$ 747 Million in tech VC investment (37% of all funding), but only takes 4th place behind Egypt in deal count.

Meanwhile Egypt breaks into the top 3 both in terms of deal count (+147% YoY) and deal volume (+215% YoY).

The regional landscape has now been redrawn with 85% of the total funding (US\$ 1.7 Billion) going to the top 4 countries.

Number of rounds per country - 2019

Partech Analysis 2020

Total funding. per country - 2015 to 2019 (in US\$ M)

Partech Analysis 2020

1. Nigeria

- Nigeria broke away in terms of total funding, having attracted **US\$ 747 Million (+144% YoY)**, but comes only 4th in terms of number of transactions with **38 deals (+46% YoY)**.
- A total of **16 start-ups** raised 17 rounds **equal to or higher than US\$ 5 Million**.

2. Kenya

- Kenya is squarely sitting at the 2nd place both in total funding as well as number of transactions with **US\$ 564 Million (+62% YoY)** in funding over **52 deals (+18% YoY)**
- **15 start-ups** raised 18 rounds **equal to or higher than US\$ 5 Million**.

3. South Africa

- South Africa has slowed down compared to Kenya and Nigeria in terms of total funding, with **US\$ 205 Million (-18% YoY)** but remains the undisputed #1 in deal count with **66 deals (+78% YoY)** thanks to its maturing early stage ecosystem growing faster (28% of all Seed & Series A transactions).
- **11 start-ups** raised 11 rounds **equal to or higher than US\$ 5 Million**.

4. Egypt

- Egypt is garnering strong attention and has now secured a 3rd place both in terms of total funding as well as in the number of transactions. With **US\$ 211 Million (+215% YoY)** in total funding it has overtaken South Africa for the first time. With over **47 deals (+147% YoY)** Egypt has also surpassed Nigeria in deal count.
- **12 start-ups** raised a round **equal to or higher than US\$ 5 Million**.

5. Rest of Africa (i.e. excluding Top 4)

- The geographic distribution of VC funding has reached **18 countries counting at least one equity tech deal** above US\$ 200K this year, compared to 19 countries in 2018
- With total funding of **US\$ 294 Million (+53%)** raised over **47 deals (+24% YoY)**, the rest of the continent is absorbing **15%** of total investment across the continent.
- **13 start-ups** raised a round **equal to or higher than US\$ 5 Million**.
- **Ghana** is leading this second group in terms of the number of deals with **10 start-ups** raising in aggregate **US\$ 55 Million** in funding. **Rwanda's 5th** position is not representative as it is mainly based on a transaction of USD\$ 120 Million from Zipline this year. **Uganda**, on the other hand, is quietly growing within the East Africa scene, with **US\$ 38 Million** in total funding, spread across **4 deals**, from Seed to Growth.
- **In French-speaking Africa, Senegal once again confirms its position as the leading hub with US\$ 16 Million** (in the Top 8) raised in **6 deals** (in the Top 6).

SECTOR BREAKDOWN

41% *of Total Funding going to Fintech*

62% *of NIGERIA's Total Funding is in Fintech*

Looking at sector breakdown, the fintech sector leads the start-up narrative with Nigeria at the epicenter.

Investment by Sector - 2019

Partech Analysis 2020

Driven by Fintech, **financial inclusion remains the main investment sector** on the continent, attracting **54.5% of total funding**.

However, the **online & mobile consumer services** sector has witnessed a steep increase to **29.3% of total funding (vs 19.6% in 2018)** while **B2B and tech adoption** represents this year only **16.1% of total deals (vs 30.4% in 2018)**.

Top funded verticals - 2019 (in US\$ M)

Partech Analysis 2020

Sector breakdown in top 4 markets

Partech Analysis 2020

Let's take a deeper look into the dynamic by investment sectors.

1. **Financial inclusion** has secured yet again the top spot when it comes to deal volume and value, with **54.5% of total investment at US\$ 1.1 Billion**, up from 50% in 2018, across **92 transactions**.
 - **Fintech** – **US\$ 836 M (+120% YoY)**, 41% of total funding, 65 deals (+55% YoY).
 - **Off-Grid Tech** – **US\$ 247 M (+27% YoY)**, 12% of funding, 21 deals (+24% YoY).
 - **InsurTech** – **US\$ 19M (+111% YoY)**, 0.9% of total funding, 6 deals (+20% YoY).
2. **B2B & Tech Adoption** has slowed down with only **16.1% of total investment at US\$ 326 Million** (-8% YoY), across **71 transactions**.
 - **Enterprise** – **US\$ 247 M (-26% YoY)**, 12% of funding, 60 deals (+36% YoY). We do not interpret this as a decline as the gap in total funding going to the sector is mainly linked to last year's exceptional transactions associated with Frontier Car Group (2 rounds totaling US\$ 130 Million).
 - **Connectivity & Hardware** – **US\$ 52 M (+344% YoY)**, 2.6% of funding, 5 deals.
 - **Marketing Tech** – **US\$ 27 M (+226% YoY)**, 1.4% of funding, 6 deals.
3. **Online & mobile consumer services** has grown to become much more prominent compared to last year with **US\$ 593 Million invested in this sector** (+160% YoY) which represents **29.3% of total funding** (vs 19.6% in 2018), across **87 transactions** (+93% YoY). This spectacular trend most significantly stems from the growth of the HealthTech sector.
 - **HealthTech** – **US\$ 189 M (+969% YoY)**, 9.3% of total funding, in 13 deals (vs 7 in 2018).
 - **E-Commerce** – **US\$ 134 M (+2% YoY)**, 6.6% of funding, 30 deals (+36% YoY).
 - **EdTech** – **US\$ 124 M (+290% YoY)**, 6.1% of total funding, 9 deals (vs 4 in 2018).
 - **Shared economy and personal services** – **US\$ 124 M (+162% YoY)**, 6% of total funding, 30 deals (vs 12 in 2018).
 - **Entertainment** – emerges this year with 5 deals accounting for US\$ 22.4 M.

FOUNDER GENDER BREAKDOWN

13% *of Total Funding going to Female* founded Start-Ups*

17% *of Number of Transactions going to Female* founded Start-Ups*

**At least one of the co-founders is female.*

Female founders are taking a growing part in the massive tech transformation of the continent with +72% YoY growth in the number of deals vs. +49% YoY for male-only founded deals, accelerating the move towards gender balance.

1. We found a total of **43 transactions (+72% YoY)** completed by female founded start-ups, representing **17% of total transactions in the year** (vs. 15% in 2018). The 72% YoY growth rate is higher than the +52% rate achieved in 2018.
2. Female founded start-ups raised a total of **US\$ 264 Million (+35% YoY)** representing **13% of the total funding of the year** (vs. 17% in 2018).
3. This includes:
 - **22 Seed transactions** totaling **US\$ 15 Million** for an average Seed round size of **US\$ 0.68 Million**.
 - **16 Series A transactions** totaling **US\$ 55 Million** for an average Series A round size of **US\$ 3.4 Million**.
 - **4 Series B transactions** totaling **US\$ 84 Million** for an average Series B round size of **US\$ 21 Million**.
 - **1 Growth stage transaction** amounting to **US\$ 110 Million**.

INVESTOR BREAKDOWN

358 *Unique Investors in 2019*

70 *Investors have completed more than 1 transaction*

The Africa tech sector's attractiveness to investors is the highest it has ever been, there being 70 investors who made two or more transactions in 2019 compared with 20 investors only back in 2017.

1. **358 unique investors** took part in the transactions.
2. **70 investors** have done **2+ deals** this year.
3. The **Top 20 most active investors** have each done **4+ deals** (rounds above US\$ 200K as per our methodology)
4. The **Top 5 most active investors** have each done **7+ deals** (for rounds above US\$ 200K). They are (in alphabetical order):
 - 500 Startups;
 - Algebra Ventures;
 - Goodwell;
 - IFC – International Finance Corporation;
 - Partech Africa.

Africa is on!
